

Keshav Arora

Backend Java Developer | [LinkedIn](#) | keshavarora015@gmail.com | Tel: +91-8168524121 | Gurugram, Haryana

Summary

Innovative **Backend Java Developer** with **4+ years** of experience designing and implementing scalable microservices and APIs for financial and payment platforms. **Skilled in Java, Spring Boot, and AWS**, with a strong track record of building high-performance, secure, and reliable backend solutions. Passionate about optimizing system architecture and enhancing application performance. Seeking an opportunity to contribute expertise and drive innovation in a dynamic software development environment.

Skills

Backend Development: Java, Spring Boot, Spring MVC, JPA, Hibernate, REST APIs, API Design & Documentation

Databases & Messaging: MySQL, MongoDB, Redis, Kafka, Debezium

Cloud & Tools: AWS (SQS, SNS, Lambda, S3, EC2, RDS, CloudWatch), Git, Jira

Core Expertise: Design Patterns, OOPs, Keycloak, JWT, SOLID Principles, Data Structures & Algorithms

Professional Experience

BharatPe SDE - 2 | Nov 2024 – Present

- **Developed a scalable geo-validation model** for Swipe Onboarding Requests, increasing merchant location accuracy by **35%** and reducing manual verification efforts by **40%**, leading to faster onboarding.
- **Led UKYC Portal enhancements**, streamlining merchant verification by integrating delivery addresses and creating a unified view for PAID Swipe applications, **reducing verification time by 50%** and improving approval accuracy.

Falcon Financial Services SSE | Sept 2023 – Nov 2024

- Architected a serverless microservices system leveraging AWS technologies (SNS, SQS, Lambda), enhancing data processing efficiency by **40%** and scaling to handle over 1M+ daily events with Apache Kafka.
- Secured access for **100,000+ users** by implementing robust authentication and authorization protocols using Keycloak.
- Designed and maintained credit card modules (Account, Card, EMI, Transactions, Notifications), ensuring high availability and serving **100K+** customers seamlessly.
- Automated third-party report processing through AWS Lambda triggers, reducing manual effort by 80% and improving database accuracy.

Innovatiview India Pvt. Ltd. SDE - 1 | Nov 2022 – Sept 2023

- Contributed to the development of TrackView, a Smart GPS Locking Solution using Java & Spring Boot, improving tracking accuracy by **90%**.
- Increased user engagement by **30%** through the design of an event-triggered SMS service.
- Developed a reporting service for trip data, driving a **15% improvement** in decision-making and a **10% enhancement** in asset tracking.

Mobikwik SDE - 1 | Jul 2021 – Nov 2022

- Enhanced backend functionality in Payment Modules (Wallet : Add Money, IMPS, History and Help Section).
- Designed and implemented an **auto-switching feature** for bank delays, boosting user retention by **15%** and reducing complaints by **25%**.
- Spearheaded automation test suites, increasing team productivity by **70%** and minimizing manual errors.

Education

J.C. Bose University of Science and Technology, YMCA

B.Tech in Computer Engineering | 2017 – 2021 | CGPA: 8.43

Achievements & Certifications

- Employee of the Year (2021–2022) at Mobikwik.
- Employee of the Quarter (Q4 2023, Q1 & Q2 2024) at Falcon Financial Services.
- Oracle Certified Associate, Java SE 8 Programmer 1.
